“... [D]on’t mistake Willamena for anything but pros. *Lost in the Shadows* is their fourth CD, with solid songs and major-label-level production from the likes of Kevin Beamish (REO Speedwagon, Kenny Chesney, Reba McEntire, Elton John)... The songs are there, including... *Falling Through the Sky*... which should be given an ear by radio MDs as well as music supervisors.” Artist Spotlight, *TheTop22.com*

“... [U]ndeniably infectious rock...” “[T]he standout tracks... [including] *Falling Through the Sky*... could do some serious damage on U.S. radio... And that means there are songs on this album you’ll likely be humming in your sleep.” John Sinkevics, *SpinsOnMusic.com*

“... Unforgettable hooks represent one of many strengths of a band whose versatility shines live and in the studio.” Carly Plank, *Revue Magazine*

“... I keep thinking, how could a band with this talent and sound not be on a big label... will these guys ever run out of hooks?” Bill Ribas, *NYRock.com*
